

**Palyov, Péter**

He was born in Szentendre in 1982.

He finished Gábor Klauzál Gábor Vocational School in Budapest in 2004. He has been painting since 2007. His paintings are inspired by the streets of Szentendre. Various light and shadow effects balance on his works – and on the walls of Szentendre architecture – appearing sometimes as completely abstract, sometimes as an eclectic scenery, just like a mix of modern and ancient, new and traditional. The scene becomes abstract. The finish, whether it is oil or acrylic reflects the wisdom of the painter. One can feel that good job requires time. Finally he ends up with such a thick layer of paint that has weight and which is like a delicious piece of cake – where sweetness pleases the eyes.
